Temperature Range across Chicagoland Area: 15-19 Degrees Overnight

Ground Temperature: 15 Degrees

Winds: Northwest at 10-15 mph

Wind Chill Values: 5-10 Degrees Overnight

	North	Central	South
Estimated Zero Tolerance (ice melt run Start Time:	TBD	TBD	TBD
Estimated Zero Tolerance (ice melt run) Completion Time:	TBD	TBD	TBD
Estimated Standard Contract 2” Contract Plow Start Time:	TBD	TBD	TBD
Estimated Plowing Completion Time	TBD	TBD	TBD

Additional Notes: There is a chance for Light Snow Showers or Flurries to move into the area from the East later this evening. There will remain a chance for snow showers or flurries into the daytime Saturday. The best chance for any type of sticking snow will be overnight tonight when ground temperatures will go below freezing. During the day on Saturday, pavement temperatures will rise above freezing so any snow that falls should melt on contact. (In most cases). We will monitor the event through out and will mobilize on our pre-approved accounts as conditions on the ground dictate.
